

## Spacelabs Certified Technical Training

Spacelabs Healthcare has designed our Certified Technical Training courses to be flexible and of maximum use to you. By structuring our training this way, we provide each of our Field Service Engineers with the appropriate level of training to meet your service needs and more importantly this also enables us to train your staff to provide the precise level of in-house service that you require. Each Spacelabs Certified Technical Training course will comprise three key categories:

### Level 1 - Product Operation

Identifying and rectifying user error and accessory/consumable failures

### Level 2 - Preventative Maintenance & Basic Corrective Maintenance

Meeting routine maintenance requirements

### Level 3 - Advanced Corrective Maintenance

Identifying and rectifying product failures
