Perioperative Solutions

Patients and workflows have never been more complicated in the Operating Room. Our patient monitors offer features that both accommodate and enhance the way you work. Our focus is clinical accuracy, improved patient care and workflow efficiencies, in addition to cost-saving features.

CONFIGURED FOR THE ANESTHESIA PROVIDER WITH THE OR FEATURES YOU EXPECT

Clinicians are challenged to do more with less. Your technology should meet this challenge by increasing your workflow efficiencies and *allowing you to focus on the patient.*

- o Ease of Use – Caregivers benefit from the familiar, intuitive user interface standard across Spacelabs physiological monitors.
- o Software dedicated to meet your OR needs.
- o Full parameter options configurable for what you need, per room.
- o Scalability based on acuity levels.
- o In-zone pressure scales.
- o A clean glass display where menus never cover the monitor screen.
    - • Second configurable display when required, with data specifically for the surgeon/perfusionist.
- o Cardiac Bypass Mode.
    - • No audible or visual alarm tones during bypass.
- o New and proven anesthetic gas monitoring technology.
    - • Offering significantly lower cost of ownership using Nomoline Adapters.
- o Flexible mounting options place displays where you want them.

CONNECTIVITY AND REMOTE MANAGEMENT

Utilize Spacelabs tools to quickly determine patient status as well as *assist with clinical decision making.*

- o Admit to Operating Room using bar code scanner/ADT interface.
- o Spacelabs SafeNSound option automates device management and does not create duplicate records.
- o Easily feeds the EMR record.
- o View data from multiple sources.

- o Trends customizable on monitor and accessible for post-op patients via iPad.

  - • Remote viewing allows room supervision, instruction, case prep and patient follow-up. Event reconstruction with all waveforms.

  - • Data capture with customized trends for treatment or research, as well as numeric and waveform data for research analysis.

- o Printing available to any network printer.

OUR GOAL IS TO PROVIDE YOU WITH ASSURANCE

Confidence and peace of mind that comes from knowing you have the right information, tools, and support to achieve the best possible outcome.
